BUDGET MESSAGE

November 19, 2025

Board of Directors
Carbon Valley Parks and Recreation District
151 Grant Avenue
Firestone, CO 80520

We are pleased to present the proposed 2026 Budget totaling $6,843,642, developed with a commitment to responsible stewardship of all available funds. This budget addresses the District's anticipated operational needs for the coming year and is submitted in accordance with Colorado Revised Statutes (C.R.S.) 21-1-105. The District continues to utilize a modified accrual basis of accounting.

Strategic Focus for 2026
In 2026, our focus remains on meeting the increasing demand for District services. With limited physical space, we aim to be both creative and innovative in how we serve the community. Key initiatives outlined in the District's Strategic Plan will guide our efforts, including the activation of multiple capital projects funded through reserves.

Investing in People
Our greatest asset continues to be our staff. We remain committed to recruiting and retaining dedicated professionals who embody the mission, vision, and values of CVPRD. Competitive compensation, a culture of learning, and growth opportunities are central to maintaining high retention and performance.

Collaborative Leadership
As staff and the Board work together, we will continue to pursue visionary goals and strategic priorities throughout 2026. This collaboration is essential to our success.

Budget Approval and Planning
The annual budget reflects a comprehensive planning process. It outlines the scope of services, aligns with the newly adopted Strategic Plan and Financial Policies, and prioritizes the allocation of public funds. The time and effort invested by both the Board and staff are evident in this forward-looking financial plan.

2026 Budget Overview
Total Appropriations: $6,843,642

Funding Sources
The District's funding is derived from two primary sources:

1. Property Tax Revenues – The primary source of funding, impacted by community growth and fluctuations in oil and gas production tax revenues.
2. User Fees – Generated from recreation programs and facility usage. Fees are reviewed and adjusted annually based on market trends and subsidy goals.

BUDGET MESSAGE

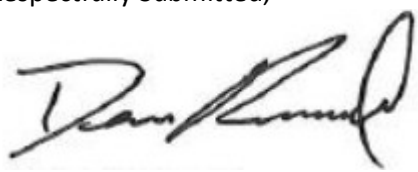

Expenditures
General operating expenditures for 2026 are based on historical and current spending patterns. A projected inflation rate of 5–10% has been applied to categories such as utilities, memberships, and dues.

Capital Projects
Capital investments are planned annually, with 2026 focusing on maintaining existing facilities and assets, alongside a few major projects aligned with long-term strategic goals.

Fund Balance and Reserves
Maintaining healthy fund balances is essential to the District's financial stability. In accordance with TABOR, the District will continue to hold a minimum of 3% of revenues in reserve.

Conclusion
We respectfully submit the 2026 Budget to the Board of Directors. This budget reflects significant progress in financial management, project planning, staff development, and organizational ownership. The transparency of the process and the alignment with strategic priorities underscore our commitment to serving the Carbon Valley community.

Respectfully Submitted,

Dean Rummel
Executive Director

ORGANIZATIONAL SUMMARY

MAP OF THE CVPRD DISTRICT

BUDGET PROCESS

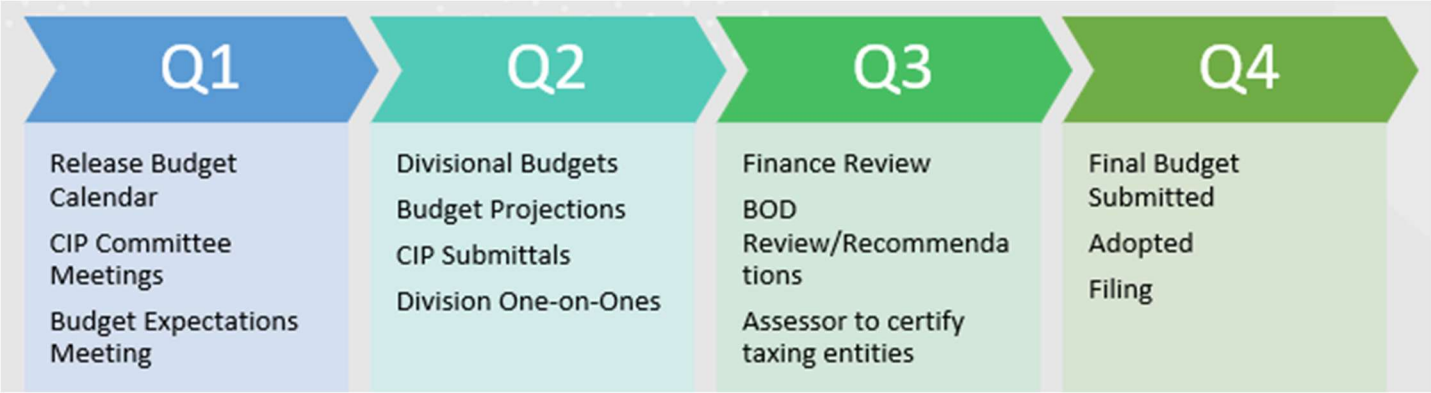

The annual budget is a fiscal plan, which presents the services and programs that will be provided to the communities within the District, and the funds needed to perform these services and programs. The Carbon Valley Parks and Recreation District constructs its budget on a calendar year, as required by law.

The budget is prepared and adopted in a manner, in accordance with law, that adequately reflects the intent of the Board of Directors for the budget year. The budget is presented as a legislative document that, together with the related appropriation resolution, will represent the Board policy concerning the sources and uses of funds for the budgeted year.

BUDGET PROCESS

The budget process begins with the publication of a budget calendar during the beginning of March. From March until May, the Executive Director and Deputy Director work with staff to perform training and prepare for the budget process. The Deputy Director meets with each division to review current and prior year spending, in preparation for the upcoming budget submissions.

Division budgets are due back, along with new budget requests by the beginning of May. After review, the Deputy Director meets again with each division to review the coming year budget. Throughout the year a team of staff members meet to review and plan for current and upcoming Capital Improvement Projects and asset replacement programs.

BUDGET PROCESS

By the end of August, the District received the Preliminary Certification of Valuation from Weld County. This document helps guide Finance on making the appropriate calculations for revenue projections in the next year.

At the beginning of October, a draft of the budget is submitted to the Board of Directors for review. A "Notice of Budget" is then published prior to October 15th, and a special board meeting is filed to receive the proposed budget. The following information is required:

- Detailed estimates of proposed expenditures for each division/program within the District
- Statements of the bonded and other indebtedness of the District
- Detailed estimates of all the estimated revenues of the District
- A statement of the estimated balance or deficit for the end of the current fiscal year
- An estimate of the amount of money to be raised from current and delinquent taxes
- Any other supporting information that is requested by the Board

Budget Hearing and Adoption

A public hearing on the proposed budget shall be held before its final adoption at such time and place as the Board shall direct. Notice of such public hearing and notice that the proposed budget is on file in the Administration Office of the District shall be published in a newspaper that specifies the date, time and place of the budget hearing and that the complete proposed budget shall be on file for public inspection during regular administrative office hours.

The Board shall adopt the budget by resolution at least (5) working days before the final day established by law for the certification of the ensuing year's tax levy to the county.

State law requires the District to certify its property taxes and mill levy with its county by December 15th and the District's final budget be submitted by January 30th to the Department of Local Affairs.

BUDGET AMENDMENTS

After the budget is adopted, the approved budget can only be changed through a public hearing of a resolution amending the budget. Requests will be reviewed and determined based on availability of funding and needs of the District.

2026 GENERAL FUND SUMMARY

General Fund

The General Fund accounts for money received from property taxes to the District and fees generated by the District. This fund accounts for all the operational activity in the District on a day-to-day basis. The general fund is broken down into categories departments and divisions. Most of the District's budget is developed, focused and reported on from the general fund.

The 2026 general fund revenues are projected to decrease 0.28% to $6,583,642 from the 2025 budgeted revenues of $6,601,972. The District's largest General Fund revenue sources are property taxes at 67.01% and charges for services at 30.30%.

Below are descriptions and highlights of the District's revenue sources:

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or, if in equal installments, at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

There was a significant decrease in property tax funds from 2025 to 2026 which is largely due to the decrease in oil and gas tax assessments for 2025. The assessment for oil and gas decreased 35% from 2025 to 2026, in 2025 oil and gas made up 30% of the property tax revenue the District received in 2025. Due to this the District's revenue will have a large decrease even though residential assessment rates went up slightly by about 12%.

For collection year 2026, the District's adopted a mill levy of 4.427 for operations.

2026 GENERAL FUND SUMMARY
